

Game control	Checks
Character can move left and right	Implemented
Character can jump and fall back to the ground	Implemented
Sound effect for character movement (left, right and jump)	Implemented
Sound effect	
Background music	Implemented
Scrolling	
Scrollable game world	Implemented
Render items	
Clouds	Implemented
Mountains	Implemented
Trees	Implemented
Canyon	Implemented
Collectable	Implemented
Implement collectables interaction	
Character is able to collect collectables	Implemented
Sound effect for character hit collectable	Implemented
Implement score counter	
Score counter increment when character hit collectable	Implemented
Implement canyons interaction	
Character is able to fall into canyon	Implemented
Sound effect for character fall into canyon	Implemented
Level	
Lives	Implemented
Game restart when character die	Implemented
Game over and "Level complete"	Implemented
Challenging level design	Implemented
Flagpole	
Render flagpole	Implemented
Game win when character reach flagpole	Implemented

Platforms	
Character can jump onto the platform	Implemented
Character can move left and right on the platform	Implemented
Character can fall off from the platform	Implemented
Character can jump on the platform	Not implemented
Create platforms using factory pattern	Implemented
Enemies	
Enemies can move left and right	Implemented
Enemy hit character	Implemented
Create enemies using a constructor function	Implemented
Code presentation	
Formatting and Indentation	Good
Comments	Good
Variable naming	Good
Other comments	
A commentary of around 250 words in PDF format.	
the bits you found difficult the skills you learnt/practiced in completing the game project	Not done yet
